

## Curriculum News

### Caterpillars - Reception

This term we have had a great time learning all about 'Space and Superheroes'. It has been an exhilarating topic with the children turning into super heroes for a week with their own unique special powers! Towards the end of term we began looking at Mother's day and we were extremely lucky to have some lambs visit the school (thank you to Harriet's mum). We have been looking after some hen's eggs in an incubator which have fascinated the children (thank you Mr and Mrs Dymant) The children have enjoyed learning about the life a cycle of a hen as a result of their curiosity around the eggs. As always we look forward to all that next term has to offer!

### Butterflies- Year 1 and 2

Our Term 5 topic is 'Food, Glorious Food' which is going to be very exciting. The children will be involved in making some sensational salads as well as inventing a new dip and dippers.

Our Science topic is 'plants' which will link in nicely as the children will be growing many different types of plants over the course of the term.

In PE the children will be improving their tennis skills which will keep everyone fit and healthy.

Year 2 will also be involved in their KS1 SATS tasks during this term.

### Dolphins- Year 3 and 4

During next term, Class 2 will be discovering how land is used: with a chance to look at different patterns in land use; making maps of the local area and the different types of farming activity in the UK. In Science, we will be investigating light. The children will learn about different light sources and how we need light to see. Additionally, they will be finding out why shadows change in relation to the distance from the object.

### Eagles- Year 5 and 6

Our topic this term is Everyone's Environment. We will be looking at how our school and local environment impacts on our lives and what we can do to improve them. We are joining with Class 2 for a collaborative design technology project that the students will begin planning after Easter. In English we will be focusing on biographies and a mini topic about the Titanic. Year six will complete SATS during this term which they are well prepared for and we know they will all do their very best. After SATS, the science topic will be a biology unit called 'Animals including humans.'
