

## Pupil premium sheet 2015

Priority: Pupil Premium
Reason for priority: PPG grant is £22050 and it is important that we track how it is spent and the impact of spending. Gaps in some year groups were evident and not closing swiftly enough between PP pupils and non PP pupils, including attendance gaps.

Action	Impact (progress)	Impact (wellbeing)
Extra one to one reading, spelling and handwriting with teaching assistants. Carefully targeted programs designed and planned by class teachers. (cost - £5090)	When we have monitored children's work we have seen improvements in what they are able to do. Assessment grids also show this. Evidence of this is in monitoring folder. Monitoring done through the short term plans.	Improvement in key skills allows pupils to access the curriculum better and improves confidence and wellbeing. HT has seen evidence in reward assembly and Easter service of very reluctant readers and writers' improvements.
One to one tuition for children in care. (cost - £4581)	Monitoring of work shows a vast improvement in skills. Evidence of pupils catching up to peers following traumatic early life experiences and the trauma of going into care.	Improved skills lead to improved confidence and wellbeing.
Change for life club early morning sessions with breakfast and activities. (cost-£287)	There have been improvements in attendance for all but 2 pupils involved. Monitoring of work shows improvement in skills.	The children love change for life club and relish attending. They also love the different colour polo shirts and hats they get to wear.
One to one maths work with class teacher/TA to boost skills. (cost - £2291)	Most work delivered by qualified teacher all work planned by qualified teacher. Has led to better one to one learning opportunities and accelerated progress seen in pupil work.	Improvement in skill leads to better confidence and parity with peers.
Social skills and feelings work with trained TA and TA that is a qualified counsellor. (cost - £3295)	Removal of emotional barriers and readiness for learning improved. Leads to improvements in work seen.	Help with emotional and social barriers leads to improved relationships in school and wellbeing.
Residential visit to boost social skills and confidence. (cost - £1416)	Help with confidence embeds improvement in progress.	Pupil wellbeing improved with increased enjoyment and confidence.
Fizzy fine motor skill support and work on gross motor skills. (cost - £304)	Improved pencil grip and co ordination led to improvements in writing, seen in moderated work.	Ability to access curriculum better leads to improved wellbeing.
Speech and language support daily from trained TA (cost - £607)	Improved speech and language skills lead to ability to access curriculum and accelerated progress. Progress seen in pupil work.	Ability to access curriculum better leads to improved wellbeing, pupil presents as a lot happier.
In class support from TAs in curriculum skills in reading, writing and maths. (cost - £4550)	Improvements seen in all key skills when monitoring work.	Improvement in skills leads to improved access to the curriculum and better wellbeing.
